Round of Play

Each player shall examine his/ her cards.

After examination of the cards, each player who has placed an Ante wager shall have the option to either make a Play wager in an amount equal to the player's Ante wager or forfeit the Ante wager and end his or her participation in the round of play. The dealer shall offer this option to each player, starting with the player to the left of the dealer and moving clockwise around the table in order. Players should be instructed to put cards under the play wager indicated by the layout. Once the play wager is placed on top of cards, players may no longer have access to their hands.

If the player's hand and the dealer's hand are equal in rank and value, the hand is considered a tie and the Ante and Play wagers shall push and be returned to the player.

The dealer shall then reveal the three-card hand of each active player, starting with player to the right of the dealer.

Paying Out:

When dealers are analyzing players winning and losing bets, dealers will always go from bets closest to the player and work up away from the player.

Dealers will take losing bets from the current player in order of Play, Ante, Pair Plus, and 6 Card Bonus.

Dealers will then pay out winning bets from the current player in order of Play, Ante, Pair Plus, and 6 Card Bonus.

When paying out, dealers should cut out all payouts in front of table bank clearly and transparently so that surveillance, the players and a supervisor (If need) can
