

Blackjack with Match Up and 3 Card Bonuses

Object of the game: to achieve a higher card score than the dealer without going over 21.

The Match Up Bonus is based on either of the player's card matching the 'up' card of the dealer prior to the start of the game.

The 3 Card Bonus is based on a 3-card hand using the dealer's one (1) up card and the player's two (2) initial up cards to form a 3-card poker hand.

The outcome of the primary blackjack wager has no bearing on the either of the bonus wagers and vice versa.

Blackjack wagers: \$ 2, 4, 6, 8 or 10

Bonus wagers: \$1 to \$10

Equipment:

Standard Casino Table

6 Standard 52 card decks

Cut card

Cash value gaming chips

1. Prior to the start of each round of blackjack play, players may optionally make A match up and/or a 3-card bonus wager in combination with their primary blackjack wager. Players must make a primary blackjack wager to receive cards and may not place only the bonus wagers. All wagers must be placed before any cards are dealt.
2. After all wagers have been placed, the dealer deals two cards, one at a time, face up, to each participating player and to his/herself in the same manner as regular blackjack (1 card face up, 1 card face down for the dealer).
3. Once the dealer has dealt two cards to each player and two cards to themselves (1 up, 1 down), the dealer must determine if any players who have made bonus wagers have winning combinations.
4. Beginning from the dealer's right to left, in counterclockwise rotation, the dealer resolves all bonus wagers prior to playing out the blackjack portion of the game.
5. In the event the dealer's up card is an Ace, the dealer will reconcile all bonus wagers prior to asking for Insurance or checking their hand for a blackjack.
6. Once all bonus wagers have been reconciled, regular blackjack dealing procedures resume.
