### Rebuy Procedures

Any Texas Hold-em tournament that allows a rebuy will follow the following procedure: When players register for the game, they are entered into the player database and issued a receipt for the tournament they have entered. Upon the purchase of a rebuy, they will have their receipt stamped and/or collected so that it is recorded, and prevents them from purchasing additional rebuys in the event purchases are limited. In the event the computer system is down or not working, the receipt held by the customer will be marked as a rebuy is purchased and further attempts to purchase a rebuy will require the receipt be shown to casino employees. In the event multiple re-buys are allowed, the dealer shall collect the receipt on the first rebuy and mark the receipt for each rebuy that player purchases. The dealer shall turn in all of the marked receipts upon the conclusion of the tournament
